Clinical Specialty Services

h o m e h e a l t h c a r e

Our state-of-the-art clinical facilities and registered pharmacists are available to meet all your clinical specialty requirements.

Parenteral Services

Our laboratory complete with laminar flow hood enables us to compound products in a safe, sterile environment.

Customized sterile products include solutions for intravenous, intra-muscular, and subcutaneous injections, as well as sterile eye drops and specific veterinary dosages.

Enteral Feeding Services

We offer the latest, high quality enteral feeding delivery pumps, containers, feeding tubes, and liquid nutritional supplements. The goal of our professional staff is to consult and provide expertise, assisting you in selecting the appropriate products to suit your needs.

We are a registered enteral feeding vendor for the Assistive Devices Program.

Compounding

Compounding is the art and science of preparing customized* medications for patients.

Our highly specialized staff in consultation with your physician prepare medications offering the latest in technology, and advanced products.

Compounding areas of expertise include pain management, bio-identical hormone replacement therapy, dermatologic preparations, ophthalmic, sports, flavoured and veterinary medications.

* Customized medications require specific dosage forms. Our compounding pharmacist can prepare to suit your needs including oral syringes, capsules, creams, lotions, gels, troches or lozenges, popsicles, lollipops, lip balm, topical and oral sprays, nasal sprays, suppositories, and injectables.

Your health is our concern.
